Large Group Seminar

Classroom instruction for more than 2 hours and unlimited amount of students. **\$1,200.**

Let John show you how it is done on beautiful Smith Mountain Lake in Virginia or your home waters.

The On the Water Class is the type of instruction you can't get anywhere else. John will be glad to host you on Smith Mountain Lake in the beautiful Blue Ridge Mountains, near Roanoke, Virginia. John will also travel to any lake you want him to. Students will have to pay travel expenses on any lake that is not Smith Mountain Lake. All topics covered during the day are customized to the students' desires. How to find fish? How to make tournament decisions? How do you fish a football jig in deep water? Is a Power Pole worth the money? You name it. He covers it. It is that simple.

Can you afford not become a better angler?
